

tyes.app • Homepage v3, Aligned with Final Pricing, About Us & How It Works.

Updated visual mockups + copy for every section that changed. Fonts kept consistent with the pricing, about, and how-it-works pages (Montserrat italic on accents, Glikr on **tyes**).

What changed from v2 → v3: Hero rewritten to "From Brief to Shelf" with no eyebrow line. Pricing tiers set to **\$0 / \$25 / \$45 / Custom**. Added **Deep Dive Brand Strategy** section (Deep Dive Brand Strategy upsell with Contact Us + Book a Call CTAs). Reinforced with the 5 retail buyer categories from the How It Works page. Aligned messaging with the About Us story (retail network US + Europe, brands that move fast).

*Get Your Free Image → **links to #pricing** (Free Image tier)*

CTA 2 (SECONDARY, OUTLINED TEAL PILL, EQUAL WEIGHT) → SMOOTH-SCROLL ANCHOR TO #PRICING

*Get Your Free Strategy → **links to #pricing** (Free strategy add-on / Campaign tiers)*

Dev note, all hero + brief-section CTAs anchor to the same Pricing section: "Get Your Free Image", "Get Your Free Strategy", and "See Pricing" all use `href="#pricing"` with smooth-scroll behavior (`scroll-behavior: smooth` on html or JS). The pricing section id should be `id="pricing"`. Rationale: keep the funnel unified. Every CTA lands where the user can commit or start free. No dead-end paths.

TRUST LINE (SMALL, BELOW CTAS)

No credit card required · For brands that want to move fast.

REMOVED: The eyebrow line "AI VISUALS + BRAND STRATEGY BOTH FREE TO START " is now gone. The tagline "From Brief to Shelf" already carries the promise of the full journey (visuals → strategy → placement). No need to spell it out above the headline. Cleaner, faster, more confident.

PROPOSED NEW STATE · SOCIAL PROOF CAROUSEL

Add a full-width strip **below** the AI in Action grid and **above** How It Works. Small teal eyebrow, one-line title, then an infinite-scroll marquee of client logos moving right-to-left. Pure CSS, no JS. Designed to sit visually between two dark sections without competing with them.

SECTION EYEBROW (SMALL TEAL CAPS ABOVE THE STRIP)

LOGO ASSETS SHEIKA NEEDS TO PROVIDE

PNG or SVG, transparent background, **uniform height ~ 60px** (widths can vary).
Prefer SVG for crisp scaling. If only PNG is available, export at 2× (120px tall) for retina.

File naming convention: `/public/logos/brand-name.svg` — e.g. `my-geisha.svg`, `synergy-therm.svg`, `vitaora.svg`. Sheika drops files in `/public/logos/` and the dev reads the folder or a manual list in `data/brands.js`.

Recommended: 8–12 logos. Fewer than 6 looks thin, more than 15 gets noisy.

```
// data/brands.js – Sheika edits this file to add/remove brands
export const brands = [
  { name: 'myGeisha', logo: '/logos/my-geisha.svg' },
  { name: 'Synergy Therm', logo: '/logos/synergy-therm.svg' },
  { name: 'VitaOra', logo: '/logos/vitaora.svg' },
  // add more here – no code change needed
];
```

Dev · HTML + CSS for the infinite marquee (pure CSS, no JS)

```
/* React component */
import { brands } from '@data/brands';

export default function BrandsMarquee() {
  // Duplicate the list so the animation wraps seamlessly
  const loop = [...brands, ...brands];
  return (
    <section className="brands-marquee">
      <p className="eyebrow">Few of the brands we've worked with</p>
      <div className="marquee-track">
```

```

    {loop.map((b, i) => (
      <img key={i} src={b.logo} alt={b.name} />
    ))}
  </div>
</section>
);
}

/* CSS */
.brands-marquee {
  background: #FAFAF7;
  padding: 40px 0 48px;
  overflow: hidden;
}
.brands-marquee .eyebrow {
  text-align: center;
  font-family: "Montserrat", sans-serif;
  font-weight: 600;
  letter-spacing: 3pt;
  text-transform: uppercase;
  color: #2DD4BF;
  font-size: 11pt;
  margin-bottom: 24px;
}
.brands-marquee .marquee-track {
  display: flex;
  gap: 80px;
  align-items: center;
  width: max-content;
  animation: scrollLeft 30s linear infinite;
}
.brands-marquee:hover .marquee-track {
  animation-play-state: paused;
}
.brands-marquee img {
  height: 60px;
  width: auto;
  filter: grayscale(100%) opacity(0.55);
  transition: filter 0.3s ease;
}
.brands-marquee img:hover {
  filter: grayscale(0%) opacity(1);
}
@keyframes scrollLeft {
  from { transform: translateX(0); }
  to   { transform: translateX(-50%); }
}

/* Prefers-reduced-motion: pause the animation for users who ask for less motion */
@media (prefers-reduced-motion: reduce) {
  .brands-marquee .marquee-track { animation: none; justify-content: center; flex-wrap: wrap; }
}

```

How it works: The trick is duplicating the logo list ([...brands, ...brands]) and animating `translateX(0) → translateX(-50%)`. That's exactly half the total width, so when the animation resets, the second copy is already in the same position the first copy started — visually

seamless, no jump. No JavaScript needed. On mobile, adjust gap to 40px and image height to 44px so the strip stays balanced.

Trigger on hover (desktop) and tap (mobile). Keep the flip smooth (500ms cubic-bezier(0.4, 0, 0.2, 1), the sweet spot for 3D flips). Preserve card background on both faces for visual continuity.

Copy breakdown, 5 tiers FINAL

TIER 1, FREE IMAGE

\$0 · 1 AI image · From 3H delivery. Optional: + **\$25** to add **Brand Strategy Snapshot** (paid add-on). Lead-capture taste of the product.

TIER 2, BRAND STRATEGY (STANDALONE)

\$25 · LLM visibility audit · Viral product angles · Retail buyer shortlist · 3-day delivery.
For brands that want the strategy without ordering images.

TIER 3, CAMPAIGN 5 (POPULAR)

\$25 · 5 AI campaign images · 1 revision per image · From 24H delivery · + **Brand Strategy Snapshot (INCLUDED FREE)**

TIER 4, CAMPAIGN 10

\$45 · 10 AI campaign images · 1 revision per image · From 24H delivery · + **Brand Strategy Snapshot (INCLUDED FREE)**

TIER 5, CUSTOM (ENTERPRISE)

Custom number of images · Custom revisions · + **FREE Brand Strategy Snapshot + 30-min strategy call**. Two CTA buttons: **Contact Us** (opens contact form) and **Book a Call** (opens Calendly widget).

Dev note, Calendly integration for "Book a Call": Use the Calendly inline widget or popup script. Add this to the page head: `<script src="https://assets.calendly.com/assets/external/widget.js" async></script>` Then wire the "Book a Call" button to trigger `Calendly.initPopupWidget({url: 'https://calendly.com/tyes/discovery-call'})`. Alternatively, use the inline embed: `<div class="calendly-inline-widget" data-url="..."></div>`. Sheika will provide the actual Calendly URLs. **Two events:** `calendly.com/tyes/discovery-call` (30-min, Custom Enterprise Book a Call) and `calendly.com/tyes/deep-dive-call` (1-hour, Deep Dive Brand Strategy Book a Call). Do not use the same URL for both.

Business logic: Free Image (\$0) has strategy as a paid add-on (\$25). Standalone Brand Strategy tier (\$25) is a separate card. Every Campaign tier (5, 10, Custom) bundles the Brand Strategy Snapshot for free. This creates a clean upgrade path: Free Image + \$25 strategy = \$25 total. Campaign 5 = \$25 with Snapshot already included = obvious step up. Removes friction and rewards paying customers.

Dev · Free Image rate limit (IMPORTANT): Each account can order the Free Image **once, ever**. Enforce on signup + at checkout by de-duping on **email address, billing name + address, phone number, and payment method fingerprint**. If any of these match an existing account that already claimed Free Image, block the second free order and prompt the user to choose a paid tier. Return a clear error message ("Free Image already claimed on this account, order a Campaign or Brand Strategy tier to continue"). This keeps the free tier honest without punishing legitimate first-time users. Log all blocked attempts for fraud review.

SECTION 9 · DEEP DIVE BRAND STRATEGY, NEW SECTION

PROPOSED NEW STATE · DEEP DIVE BRAND STRATEGY UPSELL

SECTION 10 · FAQ, REORDER + UPDATE

Recommended FAQ order (updated for v3)

1. What is **tyes** and how does it work? *(rewrite to mention dual offer)*
2. **What's the Brand Strategy Snapshot?**
3. **How do I get the Brand Strategy Snapshot?**
4. **What's the difference between the Deep Dive Brand Strategy and the Brand Strategy Snapshot?**
5. How long does delivery take? *(images = 3-24h, strategy = 3 days)*
6. Can I request revisions on my images?
7. What file formats do I receive?
8. What categories do you support? *(Beauty · Personal Care · Fragrance · Fashion)*
9. How do I submit my brief?
10. Is there a free trial available? *(1 Free Image per user)*

UPDATED FAQ #1, "WHAT IS TYES AND HOW DOES IT WORK?" (BORROWS ABOUT US LANGUAGE)

tyes is a two-engine platform. **AI campaign imagery and brand strategy backed by a retail buyer network across the US and Europe**, built for founders and marketing teams who need to go from idea to shelf in weeks, not quarters. AI does the heavy lifting. Real experts do the fine work. Strategy is baked in from the first brief. And when you're ready, **we put your product in front of the retail buyers we already work with**, the ones actually deciding what lands on the shelf next season.

UPDATED FAQ #2, "WHAT'S THE BRAND STRATEGY SNAPSHOT?"

A custom snapshot tailored to your brand. LLM visibility audit (where you show up in ChatGPT, Claude, Gemini, Perplexity). Viral product angles for your niche. Retailer shortlist across our 5 buyer categories (mass market, premium, hyperstores, hyperpharmacies, marketplaces) across the US and Europe. Delivered to your dashboard within 3 business days. No catch.

UPDATED FAQ #3, "HOW DO I GET THE BRAND STRATEGY SNAPSHOT?"

Three ways: **included FREE** with every Campaign 5, Campaign 10, or Custom order. **Add it to Free Image for \$25.** Or order the **Brand Strategy tier standalone for \$25.** Same snapshot in all three paths.

NEW FAQ #4, "WHAT'S THE DIFFERENCE BETWEEN THE DEEP DIVE BRAND STRATEGY AND THE BRAND STRATEGY SNAPSHOT?"

Two very different products.

Brand Strategy Snapshot (\$25) is a 3-day audit that identifies your gaps: where you show up (or don't) in ChatGPT, Claude, Gemini, Perplexity; the viral product angles for your niche; and a shortlist of retail buyers who fit your brand. Same snapshot whether you get it free with a Campaign, as a \$25 add-on on Free Image, or as the \$25 standalone tier.

Deep Dive Brand Strategy is a bespoke engagement that solves the gaps. Full LLM audit with a 90-day implementation roadmap. Viral product concepts developed for your niche. Warm intros to retail buyers we already work with, personally. Packaging and positioning direction. 1-hour strategy call. Priced per scope, subject to availability. Contact Us or Book a Call to get started.

Short version: **Snapshot = diagnosis. Deep Dive = cure + access.**

FAQ — "IS THERE A FREE TRIAL AVAILABLE?"

Yes. Free Image is \$0 — **1 Free Image per user.** After that, order a Campaign or grab the standalone Brand Strategy tier.

IMPLEMENTATION SUMMARY, WHAT TO CHANGE ON THE SITE

Sections to update (in this order)

1. Hero, replace headline with "From Brief to [Shelf](#)." and sub with "Campaign visuals + the Strategy that lands your product in shops." Remove the eyebrow line entirely.

2. \$0 / Image, replace with "\$0 / Image." + "Free Strategy with every Campaign." (reflects the actual model: strategy is free-bundled with paid Campaigns, \$25 add-on for Free Image, \$25 standalone Brand Strategy tier).

3. Share Your Brief, update sub-headline "WE STRATEGIZE IT" + add 3rd CTA.

4. Categories We Serve, simplify to 4 categories (Beauty · Personal Care · Fragrance · Fashion) + new tagline "Images + Strategy".

5. AI in Action, update sub-headline "Visuals + strategy, real brands, real outcomes."

5b. NEW · Brands We've Worked With row, insert immediately after AI in Action (before How It Works). Small teal eyebrow "Few of the brands we've worked with" + infinite-scroll logo marquee (pure CSS, 30s cycle, pauses on hover, grayscale → color on hover). Sheika drops logo files in /public/logos/ and edits data/brands.js — no code change needed to add/remove brands.

6. How It Works, remove old "Commercial License" badge, add two new badges "Brand Strategy" + "Retail Access" (total: 4 badges). Add 5th step card "+ BRAND STRATEGY" with distinct teal border.

7. NEW · Retail Network section, insert between How It Works and Pricing. 5 buyer type cards + geographic coverage line.

8. Find the Perfect Package, FINAL prices: Free Image \$0 / Campaign 5 \$25 / Campaign 10 \$45 / Custom. Add "\$25 add strategy" on Free tier. Add "Brand Strategy" as separate standalone tier (\$25). Include Brand Strategy Snapshot free on all Campaign tiers.

9. NEW · Deep Dive Brand Strategy section, insert between Pricing and FAQ. Contact Us + Book a Call CTAs.

10. FAQ, reorder, update #1 and add strategy questions #2, #3, #11.

Font consistency: All new sections use the same font stack as the pricing, about, and how-it-works pages. Body + buttons: Montserrat Medium (500). Titles: League Spartan Bold (700). Accent (teal italic): Montserrat Italic (700). Brand mark "**tyes**": Glier (fallback Grandstander).

I. FAQ Data Structure (Reordered)

```

// data/faqItems.js
export const faqItems = [
  { q: 'What is tyes and how does it work?',
    a: 'tyes is a two-engine platform. AI campaign imagery and brand strategy backed by a
retail buyer network across the US and Europe...' },
  { q: "What's the Brand Strategy Snapshot?",
    a: 'A custom snapshot tailored to your brand...' },
  { q: 'How do I get the Brand Strategy Snapshot?',
    a: 'Three ways to get the snapshot: FREE with any Campaign 5, Campaign 10, or Custom
order · $25 add-on on Free Image · $25 standalone Brand Strategy tier.' },
  { q: "What's the difference between the Deep Dive Brand Strategy and the Brand Strategy
Snapshot?",
    a: 'Snapshot ($25) = 3-day audit that identifies gaps: LLM visibility, viral product
angles, retail buyer shortlist. Deep Dive = bespoke engagement that solves them: full
audit + 90-day roadmap, warm intros to retail buyers we know personally, packaging &
positioning direction, 1-hour call. Priced per scope, subject to availability.' },
  { q: 'How long does delivery take?', a: 'Free Image: from 3H. Campaign 5 & 10: from
24H. Strategy: 3 business days.' },
  { q: 'Can I request revisions?', a: 'Campaign 5 and Campaign 10 include 1 revision per
image.' },
  { q: 'What file formats do I receive?', a: '...' },
  { q: 'What categories do you support?', a: 'Beauty · Personal Care · Fragrance ·
Fashion' },
  { q: 'How do I submit my brief?', a: '...' },
  { q: 'Is there a free trial available?',
    a: 'Yes. Free Image is $0. 1 Free Image per user. After that, order a Campaign or the
standalone Brand Strategy tier.' },
];

J. Implementation Checklist

Setup:

- ☐ Add Google Fonts link to <head> (League Spartan + Montserrat)
- ☐ Add Glikier font kit or self-hosted @font-face for "tyes" brand mark
- ☐ Set CSS variables in :root for design tokens
- ☐ Add scroll-behavior: smooth to html, scroll-padding-top: 80px if sticky header
- ☐ Add Calendly widget script + CSS to <head>

Section IDs (for anchor navigation):

- ☐ id="pricing" on the Pricing section
- ☐ id="brand-strategy" on the Deep Dive Brand Strategy section

- ☐ id="retail-network" on the Retail Network section (optional)
- ☐ id="faq" on the FAQ section (optional)

Components to build / update:

- ☐ <Hero />, headline "From Brief to Shelf" + 2 CTAs anchored to #pricing
- ☐ <DualValueProp />, "\$0 / Image. \$0 / Strategy." block
- ☐ <BriefUpload />, add "WE STRATEGIZE IT" + 3 CTAs (all → #pricing)
- ☐ <Categories />, 4 categories only: Beauty · Personal Care · Fragrance · Fashion
- ☐ <BrandsMarquee /> NEW, infinite-scroll logo row on light background · reads from data/brands.js · pure CSS animation, no JS library
- ☐ <HowItWorks />, 5 flip cards with front/back, remove old "Commercial License" badge, add both new badges "Brand Strategy" + "Retail Access" (4 total)
- ☐ <RetailNetwork /> NEW, 5 buyer type cards + flags 🇺🇸🇬🇧🇫🇷🇮🇹 + "UNLOCKED WITH THE DEEP DIVE BRAND STRATEGY" pill
- ☐ <Pricing />, 3 tier cards + 1 Custom Enterprise + FREE badges
- ☐ <DeepDiveStrategy /> NEW, full playbook section + Contact Us + Book a Call
- ☐ <FAQ />, reorder + add 3 new brand strategy questions with "NEW" badge

Content tweaks:

- ☐ FAQ #1 rewrite (borrows About Us copy)
- ☐ All bonus lines: "+ FREE Brand Strategy Snapshot" (emphasize FREE)
- ☐ Free Image tier: "+ Add Brand Strategy \$25" (paid add-on) + separate Brand Strategy standalone tier (\$25)
- ☐ Remove all commercial license mentions
- ☐ Remove country names from Europe (keep 🇺🇸🇬🇧 flags only)

QA:

- ☐ All CTAs anchor to #pricing (smooth-scroll works)
- ☐ Book a Call opens Calendly popup with correct URL
- ☐ Flip cards work on hover (desktop) and tap (mobile)
- ☐ Mobile responsive across all sections
- ☐ Contrast passes WCAG AA on teal text over dark bg
- ☐ Fonts load correctly (no FOUT / FOIT)
- ☐ No em-dashes anywhere in copy (feels human, not AI-written)
